

RESERVE BANK OF FIJI

RESERVE BANK OF FIJI EXCHANGE RATES

Fiji has a fixed exchange rate system where the Fiji dollar (FJD) is pegged to a weighted basket of currencies comprising the Australian dollar (AUD), New Zealand dollar (NZD), United States dollar (USD), Japanese Yen (JPY) and Euro (EUR). The rate published for the FJD-USD is the official exchange rate, which is set at 8.30am each day by the Reserve Bank of Fiji (RBF). This rate is then used to calculate the rates of the AUD, NZD, JPY and EUR against the FJD.

In the local market, the RBF trades in foreign currencies only with commercial banks, buying or selling US dollars on either side of the official FJD-USD mid-rate. Exchange rates published on the RBF website are for indicative purposes only and do not necessarily reflect the rates at which the local commercial banks are willing to deal with customers on a particular day. Please contact your local commercial bank or registered foreign exchange dealers for firm quotes.
