

RESERVE BANK OF FIJI

MEDIA UPDATE

Fiji National Summary Data Page (NSDP) Goes Live

Further to the attached Press Release which was submitted on 27 August 2018, Fiji's National Summary Data Page (NSDP) was launched yesterday (13 September 2018) and is now available online!

- The NSDP can be found on the following link: <https://www.rbf.gov.fj/Statistics/e-GDDS>
- The NSDP was developed by the Reserve Bank of Fiji, Fiji Bureau of Statistics and Ministry of Economy with the assistance of the IMF, following their technical mission to Fiji 3 weeks ago (17-23 August 2018).
- The NSDP is hosted on the RBF website and the link to the page is also available on the FBOS and MOE websites.
- The NSDP aims to serve as a one-stop publication vehicle for key macroeconomic and financial data.
- A key highlight of the data on the NSDP, which will prove beneficial to the user is that all data are excel-based and includes historical data up to the latest. This will be updated either on a monthly, quarterly or annual basis depending on the type of data.
- The new NSDP will provide national policy makers and a broad range of national and international stakeholders, including investors and rating agencies, with easy access to information that the IMF's Executive Board has identified as critical for monitoring economic conditions and policies in a country.
